Hello sir/ma'am,

I am writing to express my strong interest in the Java Developer position at Volvo Group Connected Solutions, as advertised. With a background as a Senior Analyst at Capgemini and a recent B.Tech (CSE) graduate, I am excited to contribute my skills and experience to your team, dedicated to building world-class connected services for commercial vehicles.

As a Senior Analyst at Capgemini, I have honed my expertise in Java development, including Spring Boot, Hibernate/JPA, and WS-Restful. I have a solid foundation in cloud technologies, specifically AWS, and a keen interest in DevOps practices. My proficiency in SAFE Agile methodologies and working with global teams aligns well with the collaborative environment you seek.

My technical skill set includes proficiency in Java 8, Hibernate/JPA, SQL, Spring Boot, WS-Restful, JMS, and AWS Cloud. I also have experience with tools such as Git, JUnit, Maven, JIRA, Jenkins, and Confluence.

I am excited about the opportunity to work in an innovative and dynamic company like Volvo Group Connected Solutions, contributing to the development of cutting-edge connected services. I believe my background, passion, and skills align perfectly with the requirements of the role.

Thank you for considering my application. I look forward to the opportunity to discuss how my qualifications and enthusiasm make me a strong candidate for this role.

Thanks & Regards,

Priyanshu Gupta
